SBM VPK-233136 TIGR special armoured vehicle equipped with the 'Raid' package is designed for carriage of troops and cargo on general-purpose roads and in rugged terrain, for use as a means of transport and a service vehicle of police forces on counterterrorist operations and riot control operations.

Taking into account the requirements of one of the foreign customers, the designer came up with the 'Raid' package for the SBM VPK-233136 TIGR special armoured vehicle. Unlike the baseline VPK-233136, the 'Raid' package features a five-door armoured hull and several other options introduced to the design at the request of the foreign customer.
